

PEN SHADING

(4 TECHNIQUES)

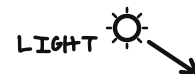

PENCIL GETS DARKER WHEN YOU PRESS HARDER. INK DOESN'T. IN INK, VALUE COMES FROM HOW MANY MARKS YOU MAKE AND HOW CLOSE TOGETHER THEY ARE: MORE MARKS = DARKER. LIGHT COMES FROM THE TOP LEFT, SO THE RIGHT SIDES AND THE CAST SHADOWS ARE YOUR DARKEST DARKS.

1. FILL THE 5-STEP SCALE 2. FILL THE SMOOTH SCALE (NO JUMPS) 3. SHADE ALL 3 FORMS

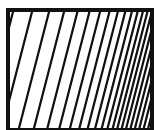

W = WHITE L = LIGHT M = MID D = DARK B = BLACK

PEN ONLY

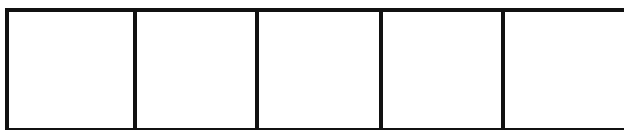

01 HATCHING

PARALLEL LINES THAT ALL GO THE SAME DIRECTION. PACK THEM CLOSER TOGETHER TO GO DARKER.

EXAMPLE

W

L

M

D

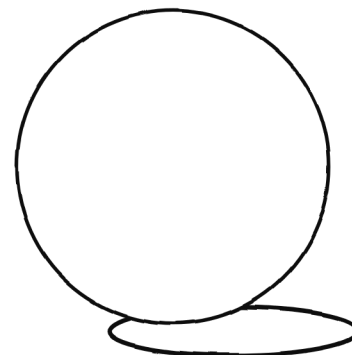

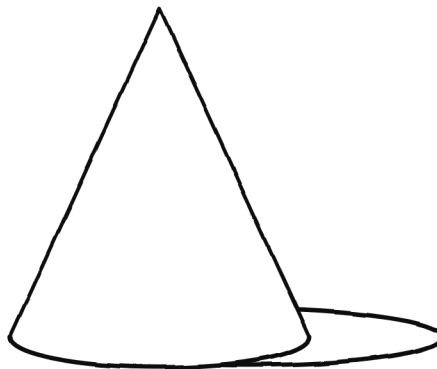

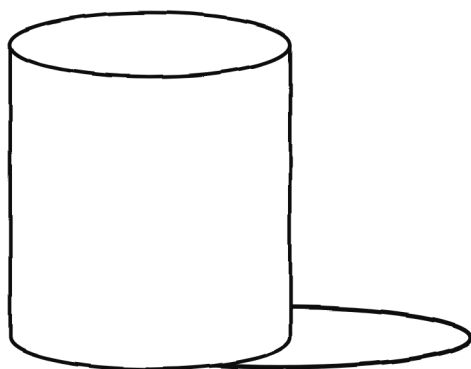

B

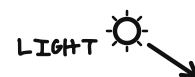

WHITE

SMOOTH SCALE

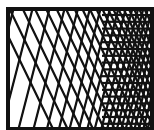

BLACK

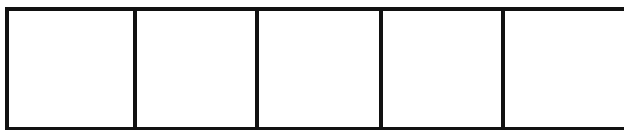

02 CROSSHATCHING

LAYERS OF HATCHING THAT CROSS EACH OTHER. EVERY NEW LAYER OF LINES MAKES THE VALUE DARKER.

EXAMPLE

W

L

M

D

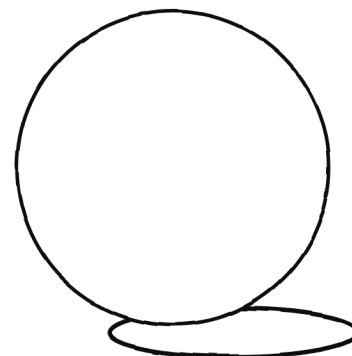

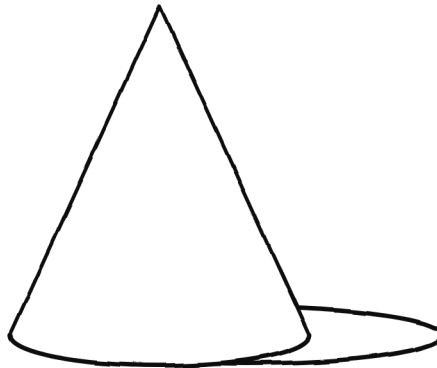

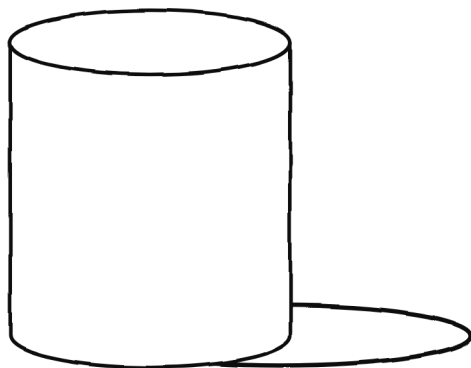

B

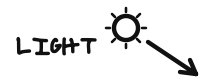

WHITE

SMOOTH SCALE

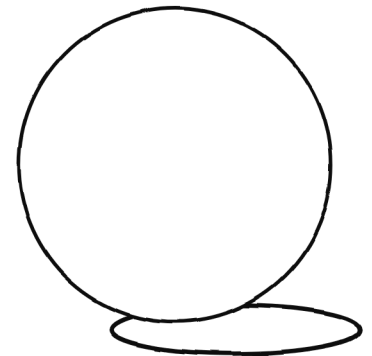

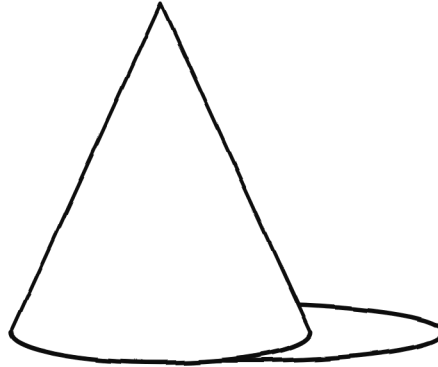

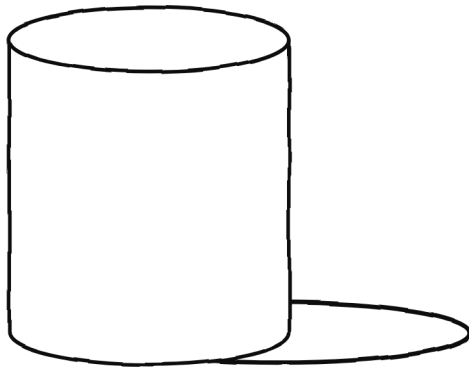

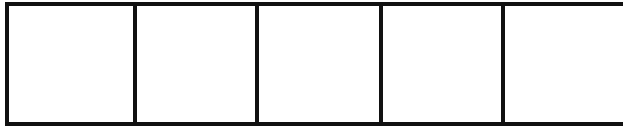

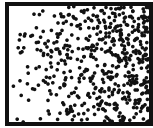

BLACK

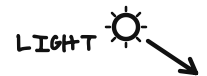

03 STIPPLING

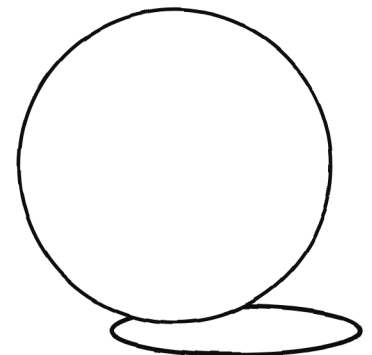

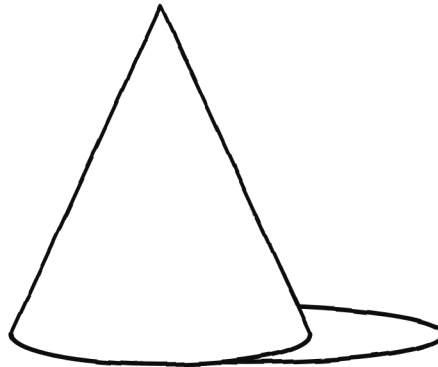

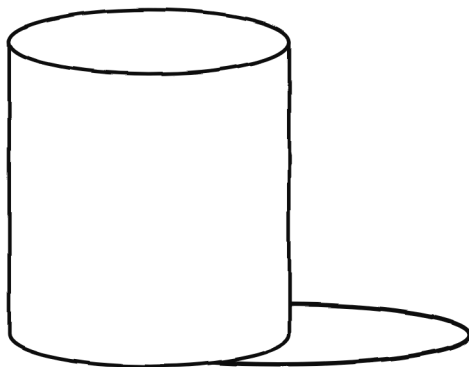

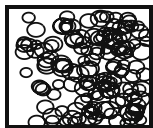

DOTS ONLY, NO DASHES OR TAILS. MORE DOTS PACKED CLOSER = DARKER. SLOW AND STEADY WINS.

04 SCUMBLING

TINY OVERLAPPING SCRIBBLED LOOPS, LIKE A TANGLE OF THREAD. STACK MORE LOOPS TO GO DARKER.

CHECK YOURSELF:

- DOES EACH 5-STEP SCALE GO FROM WHITE TO BLACK WITH AN EVEN JUMP BETWEEN BOXES?
- DOES EACH SMOOTH SCALE FADE WITH NO HARD EDGES?
- DOES EVERY FORM HAVE A LIGHT SIDE, A SHADOW SIDE, AND A DARK CAST SHADOW POINTING RIGHT?
